

# Workplace Training in Water Operations

Compliance Monitoring working in conjunction with the Chisholm Institute (RTO) can provide nationally accredited training in Water Operations. Training can be provided on-site and customised to your plant.

Current courses include:

- Certificate II in Water Operations
- Certificate III in Water Operations
- Certificate IV in Water Operations
- Chemical Awareness
- Maintaining Hygiene in the Potable Water System
- Environmental Monitoring and Sampling

Whilst on site, our trainers can also conduct local audits and consulting services.
